

SUBASH P DOB: 25/08/2003 M. Kumarasamy college of Engineering Electronics 2025 Address : 4/1-53, Cheran Nagar, Punnam Chathiram, Karur.				
Degree	Board	Institute	% / CGPA	Year
B.E	Electronics	M. Kumarasamy college of Engineering	7.29	2025
Class XII	State Board	Cheran Matric higher secondary school	78%	2021
Class X	State Board	Cheran Matriculation school	71%	2019
Bajaj Engineering & Skills Training (BEST)				
Pursuing Bajaj Engineering & Skills Training at Sastra University, Thanjavur. - BEST GTE - 6 months fully residential program - Industry relevant curriculum: 70% practical & 30% theory - Trained by World class Industrial equipment. 4 modules: Mechatronics, Motion control & sensor technology, Robotics & Automation, Industry 4.0 & smart manufacturing - Area of Interest: PLC, Automation, Embedded System.				
ACADEMIC ACHIEVEMENTS				
- The "Best SolidWorks Award" at the Srishti Contest 2024 was awarded for the project titled "Prolonged Preservation of Human Liver Using Normothermic Machine Perfusion Process" conducted by Sanitgits College of Engineering. - Published a paper in IEEE conference by Research on "Advanced Short circuit preventive mechanism for Electric vehicles". - Secured a patent (Application No.202341077648 A) for "Extended Tomato Preservation Using an Evaporative Cooling System."				
LIVE PROJECTS				
Advanced short circuit preventive mechanism for Electric vehicles	- Developed an advanced short-circuit prevention system for EVs using real-time fault detection and adaptive circuit protection, enhancing vehicle safety and reliability. - Implemented AI-driven predictive analytics to identify potential short-circuit risks, reducing failure rates and improving overall battery and power system efficiency.			
ACADEMIC-PROJECTS				
Smart Air Monitoring System	- Designed and developed a Smart Air Monitoring System integrating IoT sensors and real-time data analytics to detect air quality parameters and pollutants. - Implemented AI-based predictive analysis for air quality forecasting, enabling proactive measures to reduce pollution exposure and enhance environmental safety.			
Prolonged Preservation of Tomatoes	- Developed an advanced preservation technique using bio-coatings/nano-packaging to extend the shelf life of tomatoes, reducing post-harvest losses. - Integrated smart monitoring sensors to track temperature, humidity, and gas levels, ensuring optimal storage conditions and maintaining freshness.			
EXTRA-CURRICULAR ACHIEVEMENTS				
Leadership activities	Led the Antenna Design Contest held at our college in 2024.			
Sports	Participated and won in Handball tournament			
workshop	Attended the '3D Modelling Using AutoCAD' workshop at NIT in Trichy 2024.			
Club activity	Actively contributed to the Startup Club, fostering innovative ideas and entrepreneurial spirit.			
MISCELLANEOUS				
Solid Works	Completed self-directed training in SolidWorks through online and tutorials on YouTube.			
Certification	Completed BMS online course – authorized by bajaj.
